Individual study: 10 hours

FULLY ONLINE

**ACCESSIBLE
TO ALL LEVELS**

POWERED BY

WHAT YOU WILL LEARN

This is an interactive module designed to guide learners through the essential knowledge, skills, and strategies needed to build a career in the fast-growing cybersecurity industry.

The module combines structured learning materials, real-world career insights, and practical activities with inspiring video testimonies from professionals in the field. Learners explore not only the technical landscape of cybersecurity but also the personal branding, networking, and diversity factors that shape successful career paths.

TRAINING CONTENT

1

Career pathways

Exploring the diversity of roles (managerial, analytical, technical) and where different skills fit; Reflecting on personal strengths and align them with suitable career paths.

2

Job-seeking strategies

Learning to tailor resumes and cover letters for cybersecurity roles; Optimising LinkedIn profiles to increase recruiter visibility and credibility; Applying personal branding strategies to stand out in a competitive market; Preparing for cybersecurity job interviews.

3

Diversity & Inclusion

Understanding gender gaps and barriers faced by women and underrepresented groups in cybersecurity; Recognising unconscious bias in recruitment and workplace culture; Discovering why diverse teams are more resilient in cybersecurity.

4

Templates & Tools

16 key cybersecurity job profiles mapped to European frameworks (ECSF, ESCO); Cybersecurity Resume Template and Checklist; Webinars; Step by step Action Plan.
